Subject: Sediment sampling, additional location discussion....

Hi Rob,

As we discussed, let's try to find a time this week to talk about the list of additional sediment sampling locations EPA forwarded on 11/21.

I am available Thursday afternoon, or Friday morning from 9 to 10. If necessary, I could do Friday from 11:30 to 12:30 or so too.

I'm copying CDM and HQI on this so we can quickly coordinate something.

Thanks,
Stephanie
